

Customization & Professionalization

Case Extracting Machine

Application

The Carton erector belongs to packaging equipment which can be divided into two types, hot-melt carton erector and tape carton erector. It has been widely used to folding and erecting cartons in different speculations before they are used in the beer, beverage and food production line. The capacity is 30-40 cartons per minute. Automatic Tape Carton Erector adapts to medium and high speed production line with its good stability in continuous linear operation. Tape Carton Erectors are widely used in folding and forming different specifications of cartons before there are used in beer, beverage and food production line.

Technical advantage

-  Low investment, quick return
-  Advanced device layout
-  International general accessories
-  Lower waste, higher productivity
-  Easy operation, rapid replacement
-  User friendly interface
-  Complete after-sales service

Structure feature

-  Large storage, low operating intensity
-  High speed, good quality
-  High automaticity, easy operation
-  Servo control, high precision

Technical Data

Models	PWSD-JCX40	PWSD-LCX40
Capacity (cartons/min.)	38 CPM	40 CPM
Dimension	3850*1300*1750 mm	
Min. Carton size	290*180*180 mm	200*120*120 mm
Max. Carton size	380*250*330 mm	525*350*400 mm
